DISCLAIMER

This document is personal to the recipient and has been prepared and issued by Botswana Diamonds plc (the "Company"). For the purposes of this notice, the presentation that follows (the "Presentation") shall mean and include the oral presentation of the slides by the Company, the question-and-answer session that follows that presentation, hard copies of this document and any materials distributed at, or in connection with, that presentation.

This Presentation has not been independently verified. The Presentation is for information purposes only and does not purport to contain all information that a prospective investor may require. No reliance may be placed for any purposes whatsoever on the information contained in this Presentation or on its completeness, accuracy or fairness. No representation or warranty, express or implied, is given by or on behalf of the Company or any of such persons’ directors, officers, advisers, agents or employees or any other person as to the accuracy or completeness of the information or opinions contained in this Presentation and, to the extent permitted by law, no liability whatsoever (in negligence or otherwise) is accepted by the Company, or any of such persons’ directors, officers, advisers, agents or employees or any other person for any loss, howsoever arising, directly or indirectly, from any use of such information or opinions or otherwise arising in connection therewith. In particular, no representation or warranty is given as to the achievement of reasonableness of, and no reliance should be placed on any projections, targets, estimates or forecasts contained in this Presentation and nothing in this Presentation is or should be relied on as a promise or representation as to the future. The information and opinions set out herein may be subject to updating, completion, revision, verification and amendment and such information may change materially. In furnishing this Presentation, the Company does not undertake any obligation to provide any additional information or to update or keep current the information in this Presentation or to correct any inaccuracies in, or omissions from, this Presentation which may become apparent.

This Presentation should not be considered as the giving of investment advice by the Company or any of its shareholders, directors, officers, agents, employees or advisors. Each party to whom this Presentation is made available must make its own independent assessment of the Company after making such investigations and taking such advice as may be deemed necessary.

Some statements contained in this Presentation or in documents referred to in it are or may be "forward-looking statements" or "forward-looking information" (as such terms are understood under applicable securities laws). "Forward-looking statements" include, but are not limited to, statements as to future operating results, work plans and potential acquisitions and contracts. The forward-looking statements include statements typically containing the words "intends", "expects", "anticipates", "targets", "plans", "estimates" and words of similar import. These forward-looking statements speak only as at the date of this Presentation. These statements are based on current expectations and beliefs and, by their nature, are subject to a number of known and unknown risks, uncertainties and assumptions that could cause actual results, performances and achievements of the Company and its subsidiaries to differ. The forward-looking statements are based on numerous assumptions regarding the Company’s present and future business, strategies and interests and the environments in which the Company may operate in the future and such assumptions may or may not prove to be correct. No one undertakes to update or revise such forward-looking statements. Nothing in this Presentation or in documents referred to in it should be construed as a forecast profit. All expressions of opinion and belief contained in the Presentation are opinions and beliefs held by the Company at the date of the Presentation. Material factors that could affect the Company’s future results could cause results to differ materially from those expressed in any forward-looking statements in this Presentation can be found in the Company’s 2014 annual report, available at http://www.botswanadiamonds.co.uk/res/file/BotswanaAR2012.pdf.

Accordingly, recipients of this Presentation are advised not to place undue reliance on the forward-looking statements contained in this Presentation.

Past performance cannot be relied on as a guide to future performance.

This Presentation does not constitute, or form part of or contain any offer or invitation to sell or issue, or any offer to subscribe for, underwrite or otherwise acquire, or dispose of, any securities in the Company in any jurisdiction in which such offer or sale would be unlawful prior to registration, exemption from registration or qualification under the securities laws of any jurisdiction.

This Presentation is directed at, and is only for distribution to, persons in member states of the European Economic Area who are “qualified investors” within the meaning of Article 2(1)(e) of the European Prospectus Directive 2003/71/EC (or who are persons to whom it may otherwise be lawfully communicated). No offer of securities in the company is being or will be made in the United Kingdom in circumstances which would require such a prospectus to be prepared.

This Presentation is intended for distribution in the United Kingdom only to: (i) persons who have professional experience in matters relating to investments falling within Article 19(5) of the Financial Services and Markets Act 2000 (Financial Promotion) Order 2005 (the Order); or (ii) persons falling within Article 49(2)(a) to (d) of the Order (high net worth companies, unincorporated associations etc) or to those persons to whom it can otherwise lawfully be distributed (all such persons together being referred to as Relevant Persons). This Presentation must not be acted upon by persons who are not Relevant Persons. Any recipient of this Presentation who is not a Relevant Person should return it immediately, not attend the presentation and take no other action.

The distribution of this Presentation in jurisdictions other than the United Kingdom may be restricted by law and persons into whose possession this document comes should inform themselves about, and observe, any restrictions. In particular, neither this Presentation nor any copy of it may be taken or transmitted or distributed or redistributed (directly or indirectly) in the United States, Japan or Australia. Any failure to comply with this restriction may constitute a violation of United States, Japanese or Australian laws.

WHY DIAMONDS?
Positive industry fundamentals

- **Positive long-term outlook**: dwindling supply of natural diamonds due to depletion of existing mines & minimal new commercial discoveries (only Luaxe, Angola).

- The **global portfolio of diamond mines will shrink** from over 50 commercial mines today to c.14 by 2040. Production in carat volume will fall from 145 million carats to c.60 million carats.

- **US expected to continue to lead demand** for diamond jewellery with real GDP growth between 2 and 3%.

- **China and India are the major growth centres**.

- **Lab Grown Diamonds (‘LGD’) prices are falling** and will continue to fall. Over time it is believed that consumers will view LGD’s as fashion jewellery.
HIGHLIGHTS
Four ventures on the highly prospective Kaapvaal Craton

Sunland Minerals (Botswana)
Grass roots exploration on 8 Licenses in the Orapa and Kalahari regions. Drill ready targets

Maibwe Joint Venture with BCL (Botswana)
JV on a block of 10 licences in the Kalahari with partners BCL, Future Minerals & Sisiko. Abundant microdiamonds discovered in earlier drilling

Vutomi Earn-In (South Africa)
Ramping-up production on the Marsfontein Mining Permit and an advanced kimberlite project on Thorny River plus three other Kimberlite pipe projects in the country.

Vast Resources plc (Zimbabwe)
Joint venture signed for development of a concession in the prolific Marange Diamond Fields.
EXPLORATION IN BOTSWANA
World’s best address for diamond investment

- Botswana is the **Switzerland of Africa**; stable, wealthy democracy
- **World’s largest diamond producer** (by value) with world-leading diamond mines: Orapa, Letlhakane, Jwaneng, Damtshaa and Karowe
- Sunland Minerals: Eight Licenses in the Kalahari & Orapa
  - Prospecting is chiefly focused in the Kalahari where kimberlitic indicators reported over **eight high-grade geophysical anomalies**
  - Four drill ready targets. Planning to drill in 2020.
- Maibwe JV: Ten Licenses in the Kalahari
  - JV owned by BCL (51%), Future Minerals (20%) & Siseco (29%). Siseco is 51% owned by BOD. BOD has a 15% carry through to BFS
  - A 2015 drilling programme **discovered kimberlites containing significant quantities of microdiamonds**
  - The liquidation of BCL has delayed the project.

Map source: Brook, 2012 on 11IKC website
EXPLORATION IN SOUTH AFRICA
Long history of diamond production

- South Africa: 700 M carats of diamonds produced since 1870 and produces in excess of **US$1 BN of gems per year** (c.7% global supply)

- **Thorny River**: an extension of the **Klipspringer & Marsfontein Mine** kimberlite dyke/pipe system
  - Estimated 1.2–2.1 M tons to 100 m and **in-situ value of $60-140/ton** on the dyke complex outlined so far.
  - Technology partner Subterrane have outlined **five drill ready targets** which could be kimberlite pipes.
  - **Royalty mining contractor** ramping-up on the Marsfontein Mining Permit which forecasts to be **cash flow generative** at negligible cost to shareholders

- Other projects, all diamondiferous kimberlite pipes:
  - **Free State**: **eight pipes**, next step is drilling.
  - **Palmietgat** **three pipes**, potential for royalty mining
  - **Mooikloof**: **pipe, potential for more**, desktop study
EXPLORATION IN ZIMBABWE
Open for business

- **Zimbabwe:**
  - Open for business following the **democratic elections**
  - History of diamond production at River Ranch, Murowa and contains the **prolific Marange Diamond Field**

- **Vast Resources plc:**
  - **MoU signed with Vast** to develop Zimbabwe’s diamond potential
  - BOD has 2.5% of an SPV with Vast to develop the Chiadzwa Community Diamond Concession in the **Marange Diamond Fields**.
  - At an early stage in setting-up a BOD owned exploration venture in a JV with local interests.
BOTSWANA DIAMONDS PLC

2020 news flow

- Botswana
  - Drilling on Sunland Minerals properties
  - Maibwe project development
- South Africa
  - Marsfontein Mining production
  - Drilling of the Subterrane targets on Thorny River
- Zimbabwe
  - Development of a concession in the Marange Diamond Fields.
  - Development of kimberlite opportunities outside of Marange.
• The **only explorer active on all three major countries on the highly prospective Kaapvaal Craton** of southern Africa.

• **Botswana**
  • **Drilling** of high grade anomalies
  • Fresh tracts of land becoming available in the Kalahari

• **South Africa**
  • Using **leading edge** geophysical and structural geological techniques in the pursuit of another Marsfontein
  • **Drilling** of diamondiferous kimberlite pipes in the Free State

• **Zimbabwe**
  • Brown fields exploration on kimberlites last looked at **over 30-years ago**.
Botswana Diamonds PLC
Investment proposition

- Listed on London AIM and the Botswana Stock Exchange
- **Experienced team** which developed the AK6 (Karowe Mine) in Botswana
- The **right address with a balanced portfolio** of early stage and advanced kimberlite projects in South Africa, Botswana & Zimbabwe
- **Risk sharing partnerships** with Vutomi, Maibwe & Vast Resources plc
- **Production** from the Marsfontein Mining Permit
- Use of **fit-for-purpose technology**
- Looking at **new projects** in Botswana, South Africa and Zimbabwe with a clear set of commercial filters
EXPLORATION ACTIVITIES
Corporate Presentation - December 2019
**EXPLORATION IN BOTSWANA**

**Key country facts**

**Botswana IS diamond country**

- World’s best address for diamond investment
- The **Switzerland of Africa**; stable, wealthy democracy
- Continued political stability; rule of law; good title
- Good governance; prudent economic & natural resource management
- Robust economic growth supported by revenue flows consequent to the discovery of diamonds

- Lucara’s **Karowe discovered in 2004 by BOD team**, came on stream in 2012, producing exceptional large and valuable stones

Source: Brook 2012 on 11IKC Website
MAIBWE JOINT VENTURE WITH BCL
Abundant microdiamonds discovered

- Maibwe Joint Venture owned by BCL (51%), Future Minerals (20%) and Siseko (29%)
- Siseko is 51% owned by BOD
- BOD has a **15% carry** through to Bankable Feasibility Study
- 10 licences held by Maibwe in the Kalahari
- Surrounding area hosts Gem’s Ghagho mine and Petra KX-36 discovery
- A 2015 drilling programme on PL 186 discovered kimberlites containing **significant quantities of microdiamonds**
- BCL is in liquidation and unable to finance an agreed work programme
- A new liquidator has been appointed and an offer to buy BCL’s share in the project has been made
BOD owns 100% and is currently the operator of Sunland

Eight Prospecting Licences held by Sunland Minerals:

- Two in the Orapa area
- Six in the Kalahari

Prospecting is mainly focused in the Kalahari where abundant kimberlitic indicators reported over eight high-grade geophysical anomalies have been discovered

Drilling planned for 2020 over four drill ready anomalies
EXPLORATION IN SOUTH AFRICA
Key country facts

A confluence of:
• Perceptions of high risk and barriers to entry
• A historic legacy of South Africa as the domain of De Beers, which is no longer the case
• Limited competition for exploration ground
• Latest generation diamond exploration technologies not yet applied

And the oversight of:
• Sophisticated fixed and banking infrastructures
• A long history of diamond production with some 700m carats of diamonds produced since 1870
• The country produces in excess of US$1 billion of gems per year (c.8% of global supply)

Highlights of Vutomi earn-in:
• Portfolio of highly prospective multi-stage projects in the vicinity of known diamond mines
• 20 high-interest kimberlites already identified on the various prospecting rights
VUTOMI VENTURE: THORNY RIVER
Exploration Results – advanced stage project

- Consolidation of three properties into 2,771 hectare project
- Extension of Klipspringer & Marsfontein Mine kimberlite dyke/pipe system
- Minimum kimberlite dyke strike length of 4 km
- Estimated 1.2 – 2.1 M tons to 100 metres Modelled value of US$259/ct (BCOS of +2mm) in 2016
- Estimated (modelled) Total Content grade of 46-74 cpht (BCOS +1mm) or 35-56 cpht (BCOS +2mm)
- In-situ value of $60-140/ton
- Five drill ready targets identified by technology partner Subterrane which could be kimberlite pipes

+11 Diamond Sieve  +9 Diamond Sieve
VUTOMI VENTURE: THORNY RIVER
Marsfontein Mining Permit – ramping-up production

- Royalty mining agreement signed with Eurafrika Diamond Corporation to **mine the residual dumps and gravels on the farm Marsfontein**.
  - 25% of the pre-tax revenue from larger or high value “Special Stones” (any stones weighing 10.8 carats or more or valued at more than $8,000 per carat) and
  - 5% from the standard “Run of Mine” stones accruing to Vutomi.
- Mining operations currently in the **pre-production phase** which consists of:
  - Load & haul operations
  - Processing plant which consists of primary screening, two rotary pans, grease and Flow Sort x-ray recovery.
- Plant processing rate of 200 tons per pan per day.
- Estimated c.320,000m³ of residual dumps.
- Extensive and under explored gravels.
• **Eight kimberlite pipes** identified in the Free State from historical diamond production records and ground truthing

• Kimberlites confirmed through whole rock geochemistry

• Detailed ground geophysical survey completed with kimberlite pipe surface areas of up to 1.5 hectares

• **High interest mineral chemistry** from all eight kimberlites (3,100 grains analysed)

• **Drilling on first kimberlite planned** 2020
VUTOMI VENTURE: PALMIETGAT
Exploration Potential

- The Palmietgat area comprises **six diamondiferous kimberlite pipes** of which three fall within the granted prospecting rights area

- Area contiguous to the Palmietgat Mine, formerly operated by Trivalence, with **production** statistics:
  - Extracted 63,379 cts of diamonds from Palmietgat during 2003-4
  - Valued at US$60.68 per carat (US$3.846 million)
  - Reported resources of 3.5 million tonnes at an estimated grade of 44 cpht (unknown bottom cut-off and resource classification), to a depth of 110 metres for three of the kimberlites
VUTOMI VENTURE: MOOIKLOOF
Exploration Potential

- 2.5 hectare **diamondiferous kimberlite pipe** discovered by De Beers in 1986

- Adjacent to The Oaks diamond mine, which was a 1 hectare kimberlite pipe, produced 1.4M carats at a grade of 53 cpht and diamond value of $156/ct (BCOS of +1.2mm)

- The Marnitz kimberlite cluster hosts the **nearby Venetia Mine owned by De Beers** as well as several other kimberlites in South Africa, Botswana and Zimbabwe

- A review of the award of the prospecting rights over 5 hectares out of the 800 hectares by the South African Department of Mineral Resources has been requested by a local company. **Due DMR process was followed in the award of the PR, in accordance with SA legislation.**
EXPLORATION IN ZIMBABWE
Open for business

• Zimbabwe:
  • Open for business following the **democratic elections**
  • Long history of diamond production at River Ranch, Murowa and contains the **prolific Marange Diamond Field**

• Vast Resources plc:
  • **MoU signed with Vast** to develop Zimbabwe’s diamond potential
  • **50/50** outside of the Marange Diamond Fields with a primary focus on kimberlites.
  • BOD has 2.5% of an SPV with Vast to develop the Chidzwa Community Diamond Concession in the **Marange Diamond Fields**.
  • This agreement replaces the previous Heritage Concession agreement.

COMPANY SUMMARY
Management Team

John Teeling
Executive Chairman
Founder of a number of listed resource companies, including African Diamonds. Corporate transactions in recent years have returned US$250M to shareholders. Holds a doctorate in business from Harvard Business School as well as an MBA from Wharton.

James Campbell
Managing Director
Has been Managing Director of Rockwell Diamonds and African Diamonds. Prior to these appointments he was a General Manager with De Beers. Holds degrees in Mining & Exploration geology and an MBA.

James Finn
Finance Director
20 years’ African resource company experience; director of a number of resource and industrial ventures. Has led the listing procedure for ten AIM companies. Holds a degree in business and has an accounting qualification.

David Horgan
Director
Former director of African Diamonds. Holds a Law degree from Cambridge and an MBA from Harvard; 20 years of exploration experience in Africa and South America.

Robert Bouquet
Commercial Director
20 years’ experience in diamond industry; 15 with De Beers/Rio Tinto Diamonds in a variety of strategic and commercial roles.

Anne McFarland
Director
Has worked in finance, commodity trading and manufacturing with Glencore, BP and Russian conglomerates. Fluent in Russian. Holds a degree in classics and is a chartered accountant.
